IMS Map360

Installing Free Cyclone Viewer to use with IMS Map360 PointCloud

Installing Free Cyclone Viewer for IMS Map360 PointCloud

IMS Map360 Point Cloud module runs on the powerful Leica Cyclone platform. If you **do not** have a purchased licensed version of Leica Cyclone installed on your computer you can download and use the **free Cyclone Viewer version** instead for your work:

Download Location

Download from: <http://leica-geosystems.com/products/laser-scanners/software/leica-cyclone>

It can be found under **Software** section. Expand by pressing the + button. You will then see the Leica 9.2 as shown below:

- Leica Cyclone TruView PUBLISHER

DOWNLOADS +

SOFTWARE -

COE Plug-in for AutoCAD release notes
COE Plug-in 6.2 for AutoCAD

- PLEASE NOTE: We no longer support 32 bit Cyclone and therefore will not be supplying a 32 bit version.

Instructions for Installing Free Viewer

These instructions for installing the Free Viewer version of Cyclone are below. The entire process can take up to a half hour depending on your internet speed and your computer. Be careful to install the **Viewer** or you will need to start over.

1. Once the download is completed. Unzip the CycloneSetup92-x64.zip file:

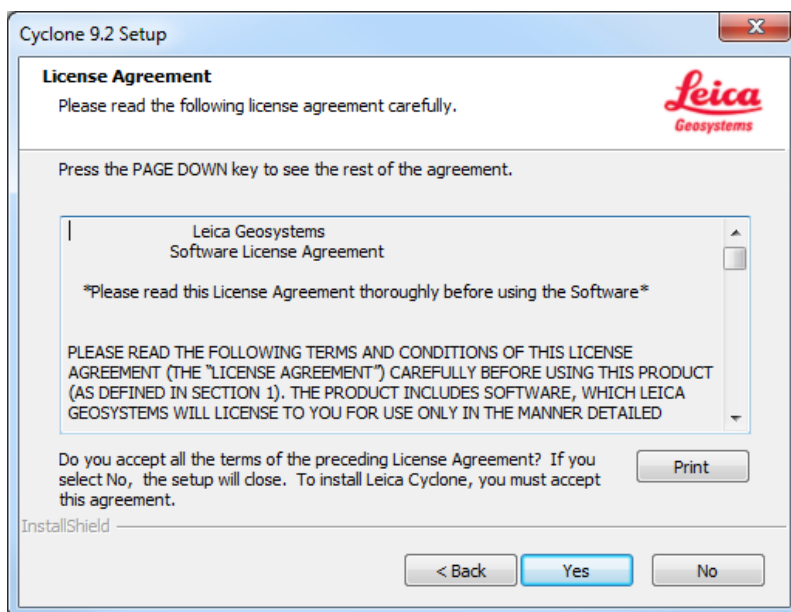

2. Open the CycloneSetup92-x64 folder. Right click on the CycloneSetup92-x64.exe and pick “Run as Administrator”.

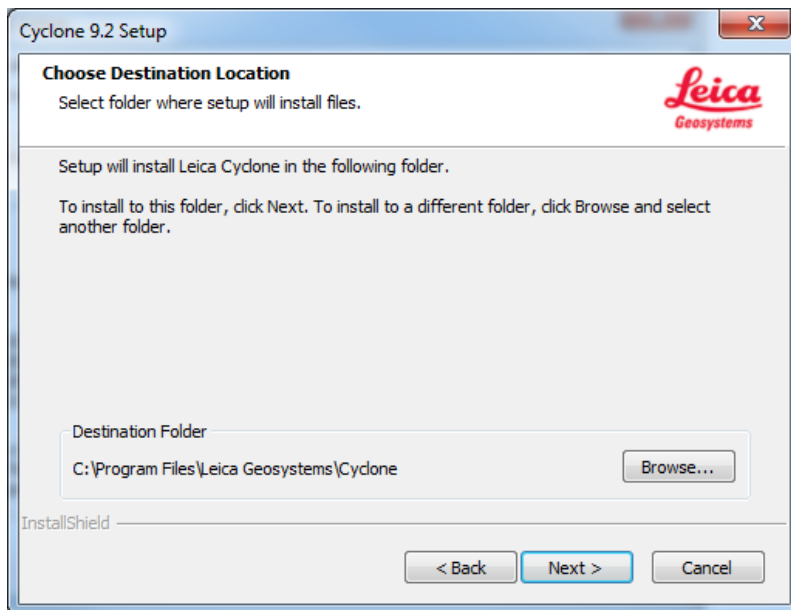

3. Press “Next” to begin the installation process.

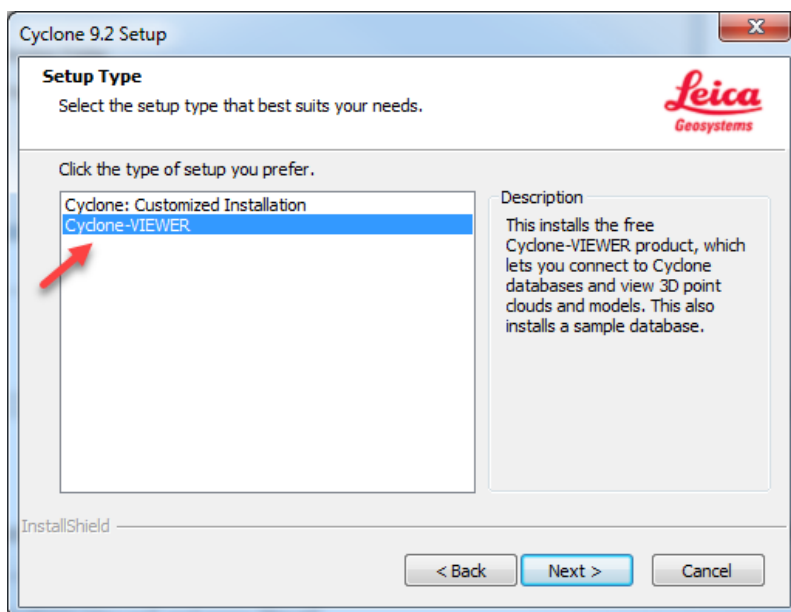

4. Select “Yes” if you agree with the licensing agreement.

5. Accept the destination default setting and press “Next”.

6. Select “Cyclone: Viewer” and press “Next”.

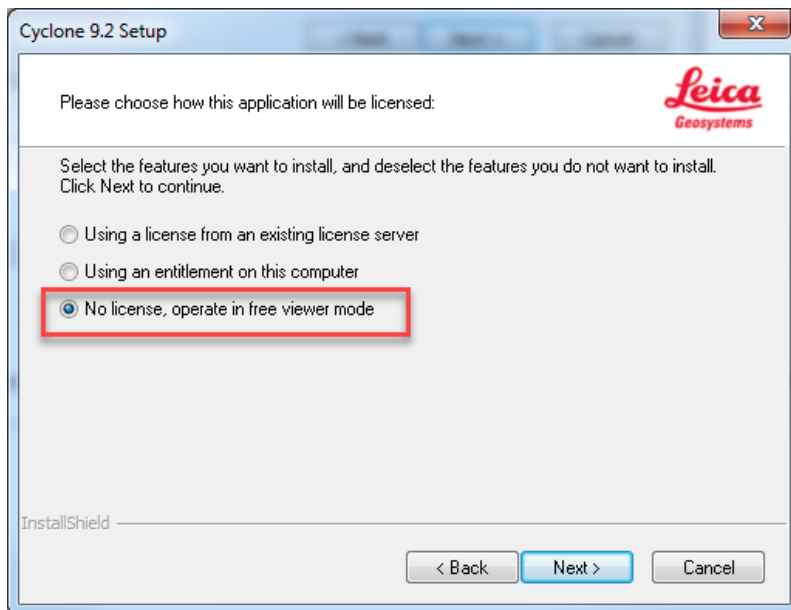

7. Leave the Program Folder at default setting specified below and select “Next”.

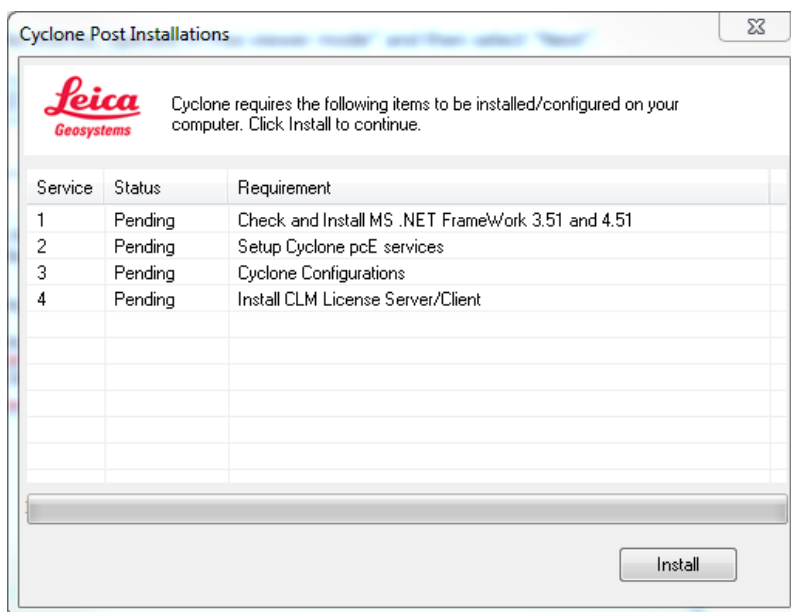

8. Select “Next” to start copying files.

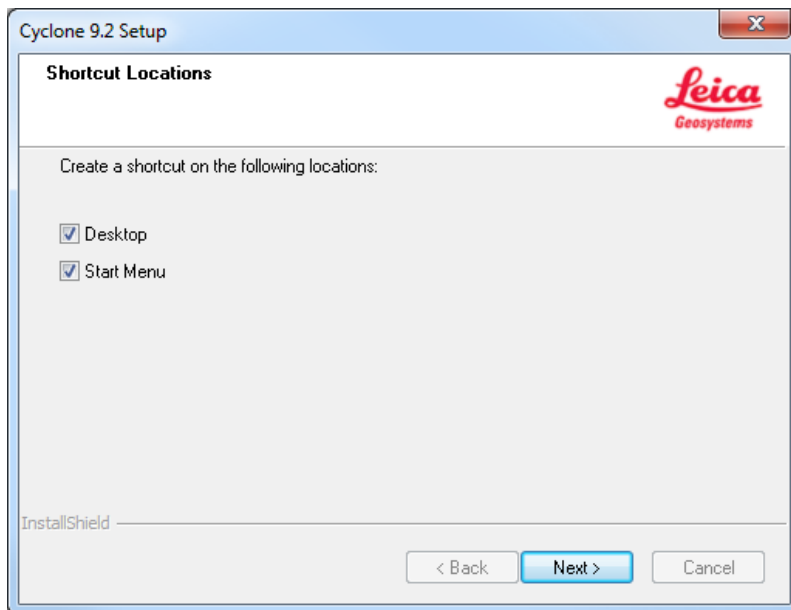

9. Select “No license, operate in free viewer mode” and then select “Next”.

10. Select “Install”.

11. Check shortcut locations and select “Next”.

12. Select “Finish”.

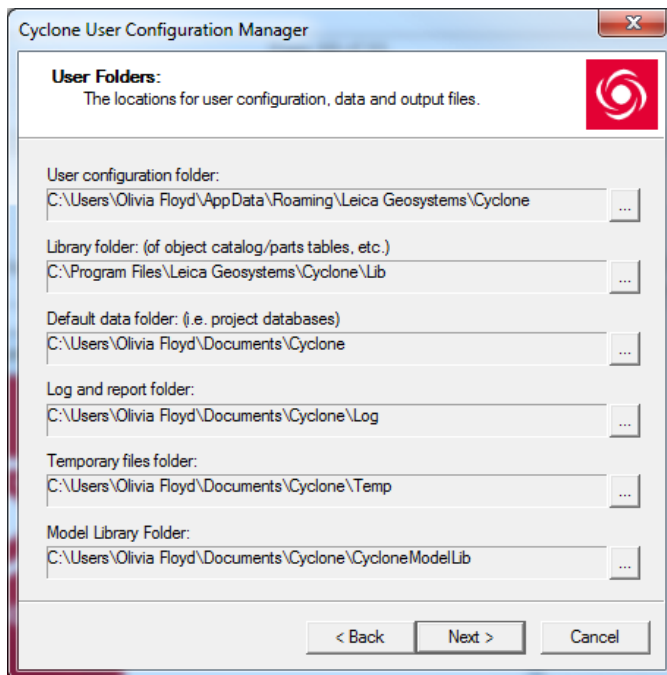

13. Press “OK”.

14. Now select “Create New User Configuration Manager” and “Next”.

15. Press “Next” to install to default folders.

16. Then select “Finish”.

17. Then “Close”.
